

ANNEX 44

EARLY CITIZEN PARTICIPATION

1 INTRODUCTION

The incumbent recognizes the citizen participation as a communication process in two directions, between the submitter, and the community and authorities which allows a natural person or a legal entity to count with the necessary information regarding a project and its possible impacts so that they can forge an informed opinion of it.

Thus, during the environmental consultation process by PHAM (Alto Maipo Hydroelectric Project) previously presented and started with the environmental pre-feasibility studies in the year 2005 to SEIA, the Incumbent has been making adaptations and/or clarifications with regards design, location and opportunity in which the works will be developed, in order to guarantee that the Project will minimize its environmental impacts and, at the same time, will facilitate the environmental permits arrangements before the corresponding Authorities. Relevant in such process was the validation or anticipated consultation on sensitive environmental aspects which the Incumbent performed together with some Public Services as well as the citizen participation process which allowed, in that time, to identify some concerns from the community and incorporating to the Project some design measurements that allow to deepen the due reservation of the environmental components. The above mentioned, consistent to AES Gener S.A. Policy regarding the insertion of the Project in the community.

In the case of PHAM, during the Early Citizen Participation process from EIA, previously presented, the Incumbent has had a number of meetings with different stakeholders of the community, represented by several authorities and members of the local community aspects. The employed methodology considers the presentation of the Project and reception of concerns and observations by those present. That is why a total of 76 activities such as, informative-consultative meetings and others as rapprochement to the community have been done (see list of activities in point 3.2.)

The interest and concerns of the community and authorities, which came out of those activities, have been included in the engineering of the current Project, and the design of the environmental management measures described in this EIA. Considering all the above, the Incumbent has reach a consensus together with the community and the local stakeholders future commitments in terms of employment, tourism and binding, and applicability of the current Fundación Maitenes funds.

In the other hand, the current environmental assessment process and, according to stipulated in Paragraph 3 of the Act 19.300 "Environmental General Basis Law", the Incumbent has agreed to answer all the citizen observations which will be entered during the Formal Citizen Participation period coordinated by CONAMA RM, which will require a quantitative and qualitative analysis of the expressions and grounds presented by the community establishing therefore, through CONAMA RM, an effective conduct of communication between the parties.

2 OBJECTIVES

The following objectives are established for PACT:

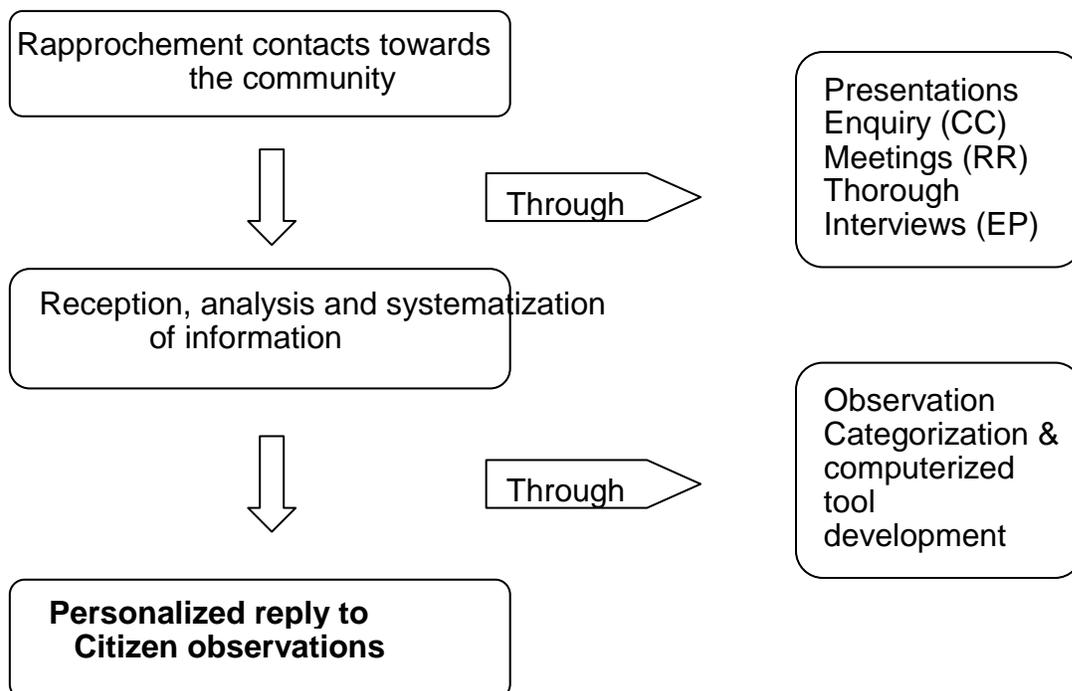

- Identify the local stakeholders involved in the development of this Project, his/her relationship and dependence.
- Register, analyze, categorize and systematize the collected observations from community and give an answer to them.
- Report the community about modifications and adaptations performed to the Project with regards the suggestions and complaints taken from the previous phases.
- Create bonds with the local community in order to know which mutual contributions the Project can generate in terms of supply and demand of employment and services.
- Specify the potential contribution offered to the local community and asses the available resources and the possible collaborators.
- Support the assembly of a more efficient mechanism for the registration of supply of local labor, aiming to improve the preferential conditions supplied by the submitter.
- Support the carry out of an educational diagnose in the municipality.
- Be in contact with the press and local broadcasting in order to inform the community during the execution of the Project.

3 METHODOLOGICAL DESIGN

The way communication and the community participation is developed in the project is one of the most crucial aspects at the moment of developing a citizen participation strategy. An inappropriate communication channel sets back fluent communication and, furthermore, it generates greater distance between the community and the Project.

In view of all the foregoing, the Incumbent has developed a methodology illustrated in the following scheme:

3.1 PACT DEVELOPMENT SCHEME

For the contact making and rapprochement towards the community, the Incumbent of the Project has carried out several activities which are listed in point 3.2 of this document.

For these rapprochements, work has been carried according to the geographic pattern of Cajón del Maipo based on the agreements with the municipality groups. The towns La Obra, Las Vertientes, EL Canelo, EL Manzano, Guayacán, El Melocotón, San Alfonso, EL Ingenio, San Gabriel y Melosas, Los Maitenes, Alfalfal, EL Romeral, Queltehues, El Volcán, Baños Morales and Lo Valdés have been grouped in:

1. La Obra, Las Vertientes, El Canelo
2. El Manzano
3. Guayacán
4. El Melocotón, San Alfonso
5. El Ingenio, San Gabriel and Melosas, El Romeral
6. Los Maitenes, Alfalfal
7. Baños Morales and Lo Valdés

With regards reception, analysis and systematization of the information, the Incumbent has implemented a computerized tool which will permit identification of each person that has taken part of the participation process. The features of this tool are detailed in point 3.3 of this document.

3.2 CITIZEN PARTICIPATION ACTIVITIES

The list with all the citizen participation activities carried out up to the date is presented next, with a total of 76 activities detailed according to activity, date, place, and participants of those encounters.

EARLY CITIZEN PARTICIPATION ACTIVITIES

February 2007 - May 2008 Period 76 activities:

1. Informative-consultative Meeting: Fundo El Manzano

Date : February 2007
Place : AES Gener
Participants : members of the ecological farm Fundo El Manzano; Project Manager, engineers and AES Gener representatives

2. Informative-consultative Meeting: Fundo El Manzano

Date : Wednesday, 14th March 2007
Place : AES Gener
Participants : members of the ecological farm Fundo El Manzano; Project Manager, engineers and AES Gener representatives

3. Informative-consultative Meeting: Municipal Council

Date : Wednesday, 11th April 2007 (10:00)
Place : Municipal Council
Participants : members of the Council, manager, engineers and AES Gener representatives

4. Informative-consultative meeting: El Manzano community (1st meeting at El Manzano)

Date : Saturday, 14th April 2007 (12:30)
Place : El Manzano School
Participants : about 50 people of the community between El Manzano land owners and people from different areas of Cajón del Maipo

5. Informative-consultative Meeting: Río Colorado Institute

Date : Saturday, 21th April 2007 (11:00)
Place : Río Colorado Institute
Participants : 13 people from El Manzano and Maurino irrigation canal communities

6. Informative-consultative Meeting: Alfalfal

Date : Wednesday, 25th April 2007 (19:00)
Place : Alfalfal Power Station Cafeteria
Participants : 32 people from Alfalfal and Maitenes community

7. Activities with the Community: Visit and Meeting at Alfalfal Power Station 01

Date : Saturday, 28th April 2007 (10:00)
Place : Alfalfal Power Station
Participants : 17 people attended from El Manzano community, school teachers and owners of Fundo El Manzano (Tom Heckel, Carlos Sánchez and Sandra Flaño)

8. Informative-consultative meeting: El Manzano community (2nd meeting at El Manzano)

Date : Saturday, 28th April 2007 (13:00)
Place : El Manzano, at the Cariñe-Arriagada family's home
Participants : El Manzano land owners, visitors of Alfafal Power Station, some other land owners of the area, Ramón Delpiano and owners of Fundo El Manzano

9. Informative-consultative Meeting: Maitenes

Date : Wednesday, 9th May 2007 (19:00)
Place : Maitenes Power Station Cafeteria, Maitenes Community
Participants : 28 members of Los Maitenes Community

10. Informative-consultative Meeting: EcoMaipo

Date : Friday, 11th May 2007 (19:00)
Place : EcoMaipo, in Guayacán
Participants : EcoMaipo group, nine guests, EcoMaipo friends and neighbors of Guayacán Community Out of them, we highlight Roberto Román, Cristina Ferrando (his wife), Pedro Guillén, Elida Moreira (current councilwoman) Alexis Cárcamo (rafting), Catherine Navarrete (in representation of Sara Larraín-Chile Sustentable)

11. Activities with the Community: Visit and Meeting at Alfafal Power Station 02

Date : Saturday, 12th May 2007 (10:00)
Place : Alfafal Power Station
Participants : 12 people from El Manzano community and its surroundings attended

12. Activities with the Community: Aucayes Exploratory Tour 01

Date : Friday, 18th May 2007 (08:30)
Place : up to mid-course of Eucayes stream, in front of Maitenes
Participants : local experts lead by Gerardo Ortega (expert guide), engineers and AES Gener professionals

13. Interview with Co-proprietors: El Manzano

Date : 19th May 2007 (15:30)
Place : Bernardo Cariñe-Arriagada's Home
Participants : Bernardo Cariñe, María Arriagada, NM.

14. Photographic Shots: possible laying design from Palestras

Date : 19th May 2007 (16:30)
Place : Palestras El Manzano
Participants : NM

15. Interview with Co-proprietors: Ramón Delpiano

Date : 21th May 2007 (16:30)
Place : Phone call
Participants : Ramón Delpiano

16. Activities with the Community: Aucayes Exploratory Tour 02

Date : Friday, 25th May 2007 (07:45)
Place : up to upper course of Aucayes stream, in front of Maitenes
Participants : local experts lead by Gerardo Ortega (expert guide), engineers and AES Gener professionals

17. Meeting with Co-proprietors: Fundo El Manzano

Date : 27th May 2007 (16:30)
Place : At a Café in Colón street, Santiago
Participants : Jaques Stern, Oriana Geisse and some else; NM

18. Interview with the Affected Party: José Ignacio Morales

Date : 29th May 2007 (08:30)
Place : Melba Café, Las Condes
Participants : José Ignacio Morales (Escalando Magazine), NM

19. Meeting with Co-proprietors: Fundo El Manzano

Date : 30th May 2007 (16:30)
Place : AES Gener, Renca
Participants : Oriana Geisse and Salvador Matte; CM, PAW, NM

20. Activities with the Community: Torrecillas Route (El Manzano)

Date : 8th June 2007
Place : Torrecillas mountainside; point projected over the surface of Las Lajas Power Station
Participants : José Ignacio Morales, Pablo Pinto, engineers and AES Gener Professionals (Luís Ibáñez, NM)

21. Interview with the affected party: Joan Donaghey

Date : Monday, 11th June 2007 (12:00)
Place : AES Gener, Renca
Participants : Joan Donaghey (owner of Palestras Hostel, El Manzano), CM, PAW, NM

22. Interview with emblematic Figures: Juan Pablo Orrego

Date : Tuesday, 12th June 2007 (16:00)
Place : José Miguel Infante 1960
Participants : Juan Pablo Orrego, NM

23. Citizen Participation Meeting summoned by CONAMA N° 1

Date : Friday, 29th June 2007 (18:30)
Place : Escuela de El Manzano, El Manzano
Participants : about 100 people from the community, title company staff and CONAMA authorities

24. Citizen Participation Meeting summoned by CONAMA N° 2

Date : Friday, 6th July 2007 (18:30)
Place : Los Maitenes Neighborhood Council
Participants : about 100 people from the community, title company staff and CONAMA authorities

25. Citizen Participation Meeting convened by CONAMA N° 3

Date : Friday, 20th July 2007 (18:30)
Place : Municipal School of San Gabriel Area
Participants : By CONANA RM, professionals from the legal area, EIA and PAC in charge of developing the process. About 50 people, project title representatives (AES Gener) and consultants, the Cordillera Province Governor, neighbor leaders, councilors, as well as public services from the technical committee, members of diverse social and neighbors organizations

26. Citizen Participation Meeting convened by CONAMA N° 4

Date : Saturday, 21st July 2007 (10:00)
Place : San José de Maipo Hospital Complex (LAENEC)
Participants : about 100 people from San José de Maipo community, incumbent company staff and CONAMA authorities

27. Citizen Participation Meeting convened by CONAMA N° 5

Date : Friday, 27th July 2007
Place : Consistorial Room, San Bernardo Municipality
Participants : by CONAMA RM, the Regional Director, a PAC professional in charge of the participation process; the Mayor of San Bernardo and two regional Advisers; incumbent members of Corema RM; incumbent project representatives (AES Gener) and round 400 people, most of them sand union members of Rio Maipú from San Bernardo and Buin Municipalities

28. Citizen Participation Meeting convened by CONAMA N° 6

Date : Saturday, 11th August 2007 (12:00)
Place : Social Development Foundation San Alfonso (former child care home)
Participants : about 150 people from the community (Astorga Family members), some other Cajón neighbors, and incumbent company staff and CONAMA authorities (as guests)

29. Citizen Participation Meeting N° 7

Date : Saturday, 18th August 2007 (10:30)
Place : Municipal Gym, San José de Maipo
Participants : about 150 people from the community, some other Cajón neighbors, incumbent company staff, and CONAMA authorities (as guests)

30. San José de Maipo Media Conference

Date : Thursday, 14th June 2007 (15:00)
Place : AES Gener, Birman
Participants : MT, PP, NM

31. Journalistic Meeting: economic media

Date : Friday, 15th June 2007 (12:00)
Place : AES Gener, Birman
Participants : MT, PP, NM

32. Informative-consultative Meeting: Juan Pablo Orrego

Date : Friday, 15th June 2007 (14:30)
Place : Sucre
Participants : Juan Pablo Orrego, Felipe Meneses (Lawyer), NM

33. Journalistic Meeting: Channel 11

Date : Friday, 15th June 2007 (16:00)
Place : AES Gener, Birman
Participants : MT, PP, NM

34. Visit: Vacant Lot Exchange Proposal

Date : Tuesday, 19th June 2007 (16:00)
Place : Camino EL Estero Community, El Manzano
Participants : López-Leiva Couple, NM

35. Interview: publication of Ramón Delpiano article clarification

Date : Tuesday, 19th June 2007
Place : El Dedal de Oro, SJM
Participants : Juan Pablo Yáñez, NM

36. Journalistic Meeting: Kairos Radio – Eduardo Astorga

Date : Thursday, 21th June 2007 (16:30)
Place : AES Gener, Birman
Participants : MT, PP, NM

37.

Date : Thursday, 21th June 2007
Place : AES Gener, Birman
Participants : MT, PP, NM

38. Informative-consultative Meeting: Cajón del Maipo's Defense and Development Committee

Date : Friday, 22th June 2007 (19:30)
Place : El Fundador Restaurant, San José de Maipo
Participants : Ricardo Seguel, Francisco Astorga, Miguel Rodríguez, Claudio López, Raquel Contreras, Catalina Urtubia, Alejandro Astorga, Luís Andrés Vargas Sandoval, Alexis Calderón, María Alejandra Fernández; CE, NM

39. Informative-consultative Meeting: Cascada de las Ánimas

Date : Wednesday, 27th June 2007 (11:30)
Place : Cascada de las Ánimas, San Alfonso
Participants : Astorga family, other people from the area, staying in or employed by the rafting company; PP, NM

40. Informative-consultative Meeting: CONAMA Technical Consultative Committee

Date : Wednesday, 27th June 2007 (15:30)
Place : CONAMA (Moneda with Ahumada streets)
Participants : CM, PAW, FN, NM, CONAMA, Services
Activity : presentation of the project to services

41. Informative-consultative Meeting: Colegio Andino Antuquélén

Date : Friday, 6th July 2007 (11:00)
Place : Colegio Andino Antuquélén (El Manzano)
Participants : teachers and students, NM

42. Informative-consultative Meeting: Cajón del Maipo's Trade and Tourism Chamber

Date : Thursday, 10th July 2007 (19:30)
Place : restaurant at Comercio Street 19678
Participants : members of the Trade and Tourism Chamber of Cajón del Maipo, Maximiliano Errázuriz, Luis Pezoa, Luis Vargas,

43. Interview: José Ignacio Morales

Date : Wednesday, 11th July 2007 (09:00)
Place : Melba Café, Las Condes
Participants : José Ignacio Morales (Escalando Magazine), NM
Activity : get to know the article content to be publish

44. Visit: El Manzano and Quempo

Date : Monday, 16th July 2007 (13:30)
Place : Maitenes, Quempo/El Manzano
Participants : Gerardo Ortega/Elsa Leiva; Luís Ibáñez, NM
Activity : local meeting and visit to Quempo / answer Elsa Leiva road width

45. Informative-consultative meeting: Maitenes Community demands list

Date : Friday, 18th July 2007 (19:30)
Place : ceremony room Maitenes
Participants : Maitenes community; CM, CE, CMo, NM

46. Informative-consultative meeting: Alfalfal Community demands list

Date : Friday, 18th July 2007 (19:30)
Place : Alfalfal cafeteria
Participants : Alfalfal community; CM, CE, CMo, NM

47. Informative-consultative Meeting: Iván Bustamante, El Manzano canal expert

Date : Friday, 30th July 2007
Place : AES Gener, Renca
Participants : Iván Bustamante, Luís Vargas

48. Informative-consultative Meeting: San Gabriel Neighborhood Council

Date : Wednesday, 1st August 2007 (17:00)
Place : San Gabriel Neighborhood Council head office, Los Rodados street; after Carabineros (police force) left hand side
Participants : San Gabriel Neighborhood Council, about 40 people from the community and incumbent company staff

49. Informative-consultative Meeting: Sandings

Date : Friday, 3rd August 2007
Place : AES Gener, Renca
Participants : Ramón Velásquez and about 20 people, most of them from Río Maipú sanding union members from San Bernardo and Buin municipalities, and project title representatives (AES Gener)

50. Informative-consultative Meeting: Baños Morales

Date : Wednesday, 22nd August 2007 (11:30)
Place : Mac Iver 376 Of. 33
Participants : Rubén Astorga (Baños Morales owner), Matías Prieto (neighbor, mountain guide), NM

51. Informative-consultative meeting: Maitenes Community demands analysis

Date : Wednesday, 22nd August 2007 (19:00)
Place : Maitenes
Participants : the "Juventud Maitenes" Sports Club Executive Board members, CE, NM

52. Activities with the Community: visit to Quempo Camping and the future load tank location

Date : Sunday, 26nd August 2007 (10:00)
Place : Quempo
Participants : Gerardo Ortega; CE, NM
Activity : Visit to Quempo, camping and football court

53. Activities with the Community: Canal experts of Pirque meeting

Date : Monday, 27th August 2007 (20:00)
Place : laMar®, Carlos Antúnez
Participants : La Puntilla Hydroelectric Plant Natalia Dasencich (Lawyer), José Manuel Córdova (Engineer), Cristián Balmaceda (president of the Agriculture Union Association), NM

54. Reply article Dedal de Oro Magazine

Date : 6th September 2007
Participants : NM

55. Informative-consultative Meeting: Neighbors of El Estero Community (Manzano)

Date : Saturday, 13th October 2007
Place : Palestras Hostel El Manzano
Participants : Neighbors of El Estero Communities, El Manzano; 14 people from the community, NM. Inform location change of Las Lajas Power Station

56. Journalistic Meeting: La Nación

Date : Wednesday, 7th November 2007
Place : AES Gener, Birman Building
Participants : Jorge López, La Nación

57. Activities with the Community: Canal experts of Pirque meeting

Date : Friday, 16th November 2007 (09:00)
Place : AES Gener, Renca
Participants : PAW

58. Informative-consultative Meeting: Neighborhood Football League

Date : Thursday, 29th November 2007
Place : Event Centre, San Alfonso Area
Participants : Neighborhood Football League of the municipality with its club delegates and residents

59. Activities with the Community: in field evaluative visit to water intake of Maurino Canal and El Manzano Canal

Date : Friday, 7th December 2007
Place : Colorado River
Participants : Rodrigo Caro (CADE-IDEPE), Alfonso Ugarte (POCH), NM

60. Activities with the Community: El Manzano Canal attempt to reach agreement meeting

Date : Monday, 10th December 2007 (12:00)
Place : AES Gener, Birman
Participants : Johanna Cavada, Iván Bustamante, Luis Pezoa, Felipe Ossandón, CM, PAW, NM

61. Consultative Meeting: UC Education Faculty (Arzola)

Date : Wednesday, 12th December 2007
Place : UC Education Faculty
Participants : The academics, Mrs. Ruby Vizcarra and Mr. Sergio Arzola, who are executing a CONICYT project in the Health and Education Corporation of San José de Maipo.

62. Informative-consultative Meeting: El Esfuerzo Neighborhood Council

Date : Thursday, 13th December 2007
Place : Populated area El Esfuerzo Neighborhood Council, San José de Maipo
Participants : San José de Maipo Municipal Association of Neighborhood Councils

63. Activities with the Community: Maurino Canal attempt to reach agreement meeting

Date : Friday, 21st December 2007
Place : AES Gener, Renca
Participants : Carlos Vitali, Gonzalo Quezada, Arturo Ibarra, PAW, Rodrigo Caro (CADE-IDEPE), Alfonso Ugarte (POCH), NM

64. Participation of discussion in Kairos Radio programme

Date : Friday, 23rd December 2007
Place : Kairos Community Radio Studies
Participants : NM with the host professor José Collao, delivering updated information to the community with regards PHAM

65. Activities with the Community: El Manzano Canal attempt to reach agreement meeting

Date : Monday, 8th January 2008 (11:00)
Place : AES Gener, Birman
Participants : Johanna Cavada, Iván Bustamante, Alejandro Ibarra, Rodrigo Caro (CADE-IDEPE), Alfonso Ugarte (POCH), NM

66. Activities with the Community: Visit and Meeting at Alfalfal Power Station 03

Date : Thursday, 10th January 2008
Place : Alfalfal Power Station
Participants : Social Leaders and the provincial newspaper "Puente Alto al Día"

67. Informative-consultative Meeting: Neighborhood Council and La Obra Cultural Centre

Date : Thursday, 17th January 2008
Place : La Obra town
Participants : Neighborhood Council and Cultural Centre

68. Informative-consultative Meeting: Victoria Neighborhoods Council (SJM)

Date : Sunday, 20th January 2008
Place : Victoria, San José de Maipo
Participants : Neighborhood Council

69. Activities with the Community: Visit and Meeting at Alfalfal 04 Power Plant

Date : Wednesday, 30th January 2008
Place : Alfalfal Power Station
Participants : social leaders with representatives of the Regional Government; PAW, NM, HE

70. Informative-consultative Meeting: Seremitt

Date : Thursday, 6th March 2008
Place : Ministry of Transport and Telecommunications Regional Secretary
Participants : Seremitt and PHAM representatives (PAW, FN, HE)

71. Participation of discussion in Kairos Radio programme

Date : Sunday, 16th March 2008
Place : Kairos Community Radio Studies
Participants : CM, Project Manager and PAW, Engineering Head with Professor José Collao, providing updated information about PHAM to the community

72. Informative-consultative Meeting: El Volcán Neighborhood Council

Date : Saturday, 26th April 2008 (12:00)
Place : El Volcán town
Participants : Neighborhood Council of the town, Juan Pablo Caldichouri, Carolina Besa

73. Informative-consultative Meeting: San José de Maipo Neighborhood Council Association

Date : Saturday, 26th April 2008 (16:00)
Place : Cultural Centre of San José de Maipo Station
Participants : called through San José de Maipo Neighborhood Council Association

74. SJM Information Office Installation: alternatives assessment

Date : Saturday, 19th April 2008 (12:00)
Place : San José de Maipo Square and surroundings
Participants : NM, HE, CC
Activity : premises search

75. SJM Information Office Installation: design and assessment of chosen alternative

Date : Thursday, 24th April 2008
Place : Benito Campos premises in San José de Maipo square
Participants : MM, HE, OR
Activity : premises assessment together with builder

76. Football Championship award ceremony 1st May

Date : Thursday, 1th May 2008 (17:00)
Place : San Alfonso Sports Field
Participants : CM, TP, CE, NM, HE, MM

4 PRELIMINARY RESULTS

According to the results from the previously described activities, it is concluded that PHAM is widely recognized by most of the people and institutions contacted as a necessary work for the progress of the country, of benevolent kind and respectful towards the environment.

Each community has declared their local concerns and has taken the opportunity to request support and improvement of their local situations. The greatest concern group was clearly part of El Manzano community, the inhabitants of the east side of Estero, where the entrance of Las Lajas Power Station and the substation was placed, they had declared their opposition. Their concerns were taken by PHAM through the redesign of the works for relocation of the equipment cavern from Las Lajas power station and the relocation of superficial works in El Manzano area.

The analysis methodology, which gives response to the observations collected to the date, are next presented. EIA formal PAC process, it has been considered the same answer analysis method.

5 DATA MANAGEMENT MODEL TO GIVE ANSWER TO THE CITIZEN OBSERVATIONS

The constituent elements of the Citizen Observation processing to the present correspond to:

- Identification of/the subscribers
- Observation enumeration
- Categorization
- Answer
- Send

First of all, it is important to record that the observations are collected in various ways, which not necessarily adhere to the format proposed by CONAMA.

Among the had-written Observations there is always a small part of the material which is unreadable and should be reviewed against the original ones.

6 INDEX CARDS

A difference between **Index Cards** and **Subscribers** has been made, taking into consideration that **Index cards** correspond to every registry of the citizen observations in the format established by CONAMA RM, and **Subscribers** correspond to the list of adherents which are accompanied with.

6.1 DATA BASE IDENTIFICATION FROM/THE SUBSCRIBERS

It contains the person and/or institution data which subscribes or sponsors the opinions or requests.

7 OBSERVATIONS

It has a number of the expressed **Topics** and **Grounds**

The screenshot shows a software interface for recording an observation. The title bar is 'Observación'. The form is divided into three main sections:

- ObservaciónNo:** A text box containing the number '10009'.
- Tema:** A text box containing the word 'Empleo'.
- Fundamentos:** A large text area containing red text. The text reads: "Se ha argumentado, tanto en el EIA como en las reuniones realizadas entre AES Gener y la comunidad interesada, que el proyecto significaría cuatro mil quinientos (4500) puestos de trabajo durante la etapa de construcción y alrededor de cincuenta (50) empleos permanentes durante la etapa de operación. AES Gener debe garantizar que a lo menos un 30% de las plazas de trabajo de la etapa de construcción se suplan con personal residente en el Cajón del Maipo. Debe indicar además los niveles de calificación requeridos para optar a esos empleos y cuáles serán las condiciones laborales a las que se tendría acceso. Se sugiere, como ejemplo, realizar las entrevistas de trabajo en San José de Maipo, para que los posibles empleados tengan facilidades de traslado. Asimismo, AES Gener debe publicar los puestos de trabajo de la etapa de operación, junto con sus condiciones, calificaciones requeridas, y qué porcentaje de éstos serían cubiertos con personal residente en el Cajón del Maipo."

 On the right side of the form, there are two buttons: 'OK' and 'Cancel'. At the top right of the header, there are navigation arrows.

Observation registration entry view

7.1 GENERICS AND SPONTANEOUS OBSERVATIONS

In order to operate the analysis of Observations a difference between **Spontaneous** -which correspond to individual Observations- and **Generics** -which correspond to a group of Observations endorsed by different people or social organizations- has been made.

Sometimes an important amount of demonstrators agreed to subscribe to the same Observation list: we have denominated them as generics. Contrary to the Observations written down individually, from their own hand-witting or by typewriter, we have denominated as spontaneous.

View of registration entry of Observation type, Organization or Individual Index Card.

The separated treatment offers savings in terms of data entry and the possibility of obtaining second statistics of adherents to each observation.

8 CITIZEN OBSERVATIONS CATEGORIZATION

The construction of thematic areas was done from the review of all the observations received to the date, an inductive process which identified a series of **12 general topics**, which at the same time were divided into **52 categories as sub level of the first one and 63 categories as sub level of the second one**.

The obtained **Categorization** (thematic areas) comprises 127 categories grouped in a three level tree, which offers enough details to cover the range of observations.

9 FUTURE ACTIVITIES (COMMITMENTS)

Future activities consider:

9.1 COMMUNITY RAPPROCHEMENT

- Communicational rapprochement with the neighborhood councils from the towns along the San José de Maipo Municipality.
- Visit plans to the AES Gener facilities in Alfalfal together with neighborhood leaders, members of the community and local authorities with the goal to show them with a concrete case, what an installation such as the planned one consists of.
- The execution of an Educational Seminar in San José de Maipo.
- Analysis of the initiatives presented by municipality members to the Entrepreneurship Support Programme and guidance on how to address it for their future application, once the Project starts running.
- Scenario analysis for the delivery of title deeds in Colorado area (Maitenes and Alfalfal) will be release once the Project starts running and the necessary works are carried out.

9.2 GIVE ANSWER TO PAC OBSERVATIONS

The Project Incumbent will give a personalized answer to each one of the observations and enquiries done by the stakeholders (natural person and institutions) during the whole formal PAC process coordinated by CONAMA, and from the early PAC lead by AES Gener.

The political, social and/or technical explanation with regards every topic, it's been elaborated by the different specialists and will be translated into a uniform and common use language. The delivery will be done, either by e-mail or, direct or institutional mail to each demonstrator, or they may be consulted by the community in the PHAM information office, which is currently in implementation period in San José de Maipo town.

The purpose of it is to answer every subscriber if possible.
