

ANNEXES – CHAPTER 6

ANNEXE 6-2 Documents Presented During Consultations on the Social Impact Study

MINE

- Increased extraction rate within the existing mine concession
- New sorting yard at Parawi and a bridge over the national highway
 - The railroad junction is at PK 2.6 (from the fork toward Sangarédi, which is at PK 0).
- Planned resettlement and compensation of populations
 - Resettlement mode is being reviewed by CBG with the goal of modernizing its approach to make it consistent with international standards.

JOBS

- 275 salaried jobs with priority on local employment
 - Distribution of jobs between the three zones (mine, railroad and port) has yet to be determined
- 1,200 workers will be needed for the construction phase - these specialized jobs cannot be filled 100% by Guineans, but priority will go to local employment

RAILROAD

- Increase in train traffic
 - Currently 6 return trips a day (12 runs)
 - 2017 – 4 to 6 additional runs
 - 2022 – another 4 to 6 additional runs
- Increase in train length
 - 130 cars maximum
- Extension of siding at PK 72 (2017)
 - The siding will be extended by 30 meters on the Sangarédi side, to connect with the main line outside a curve.

- Siding areas (2022)
 - PK14
 - PK 13.4 – PK 15.4
 - The siding will be built on the east side (the opposite side of the national highway)
 - PK118
 - PK 118.1 – PK 120.5
 - The siding will be built on the north side (the same side as the national highway)
 - Any loss resulting from the construction in the siding areas will be compensated by CBG through a process conducted in collaboration with the authorities
- Safety measures
 - Project to improve signaling with an on-board beacon system; discussion of barriers and automatic lights at level crossings
 - Speed controls on the approaches to curves

JOBS

- 275 salaried jobs, with priority on local employment
 - Distribution of jobs between the three zones (mine, railroad, port) has yet to be determined
- 1,200 workers will be needed for the construction phase - these specialized jobs cannot be filled 100% by Guineans, but priority will go to local employment

KAMSAR REGION

- Houses
 - 275 houses will be built by 2022 in a staged manner at Kamsar Cité
 - Camp for construction workers will be built by 2022 at Kamsar Cité
- Port
 - Extension of the current wharf toward the south to accommodate two ships at once
 - Dredging to enlarge the turning and waiting basins

JOBS

- 275 salaried jobs with priority on local employment
 - Distribution of jobs between the three zones (mine, railroad, port) has yet to be determined

- 1,200 workers will be needed for the construction phase - these specialized jobs cannot be filled 100% by Guineans, but priority will go to local employment
